

The Hague, 24 September 2024

To SAP, Accenture, Oracle, Capgemini & TATA C.S.

Dear CEO,

As a follow-up to earlier proposal to your Company of which you are CEO, We are trying to think along for a Transition Path.

We realise that if your Company participates, that also your Partners & Earthly Government (in)directly participate.

The Earthly 'legal' system as it is, lets to be WISHED for.

Participating with UNITED HOLLAND is also stating that you believe that All people are innocent and that they've all tried to do Very Good with what was given to them, including their belief systems and situations they did not self design.

Yet, there are prisons and incorrect verdicts in 'courts of earthly law'.

We also realise that Quantity and Quality of available jobs, lets to be WISHED for.

Yes, if Family System: FAMILY.BUSINESS™ would be rolled out Internationally, with an IT-/Transaction System, there would be much Quantity and much Quality Freelance jobs available.

With the latter not in production at this moment, We realise that if people would be released from prison, that they have a need to generate enough financial income. With momentarily jobs with 'living' wages letting to be WISHED for, that would be an issue.

So, We have an updated proposal for you:

Your Company develops (with other IT-Companies if applicable) an IT-/Transaction System for Family System: FAMILY.BUSINESS™ and for the moment become **Publically undisclosed\*** Elegant.Partners™ of UNITED HOLLAND and Publivity™/Excellentor™ Members, with verbal and/or written intention to later try to become Excellentor™ Course compliant with your Company Communication to The Public and from moment of accepting to design/build this IT-/Transaction System to start paying a 25% or more Yearly Publivity™/Excellentor™ Membership fee. Behind Corporate/Partners walls, you'll start with Excellentor Course Implementation.

\*) Intentionally not disclosed by MANAGEMENT OF UNITED HOLLAND.

When your Company (with other IT-Companies) have delivered an IT-/Transaction System for Family System: FAMILY.BUSINESS, We will intentionally try to start rolling out FAMILYWorkshop.Pro Franchise Establishments and FAMILY.BUSINESS Franchise Establishments, starting with UNITED HOLLAND Countries in order of Addition.

When there are enough of these Establishments for enough Quantity and Quality Freelance jobs, then in agreement with your Company (& other Companies) and MANAGEMENT OF UNITED HOLLAND, your Company and We can start to go Public with your Publivity/Excellentor Membership and Elegant Partnership with UNITED HOLLAND.

Awaiting your response,

Michael 'EMELINE' Roeten
