To SAP, Accenture, Oracle, Capgemini & TATA CS,

Dear CEO,

In earlier writing, We let you know that We invented Community System: COMMUNITY.BUSINESS™, in (17) August 2023, which in March 2024 evolved into Family System: FAMILY.BUSINESS™. We were able to register <https://community.business> & later <https://family.business> too. That by itself is a miracle, since We bought it at a domain registrar, not a broker. These were premium domains, however for less than \$250,- a piece, again a miracle, because that was within reach of our budget.

We know that ENLIGHTENMENT (with HumaneDynamics™) did NOT start with Earthly Government, however with Us from The Public Family. And as you probably know by now, HumaneDynamics™ is a trademark of FamRing, which is a Trade Name of UNITED HOLLAND, which started as unitedholland.com with a retired Corporal First Class of the Royal NL Army.

We made proposals earlier this year to your Company to build & manage an IT-/Transaction System for this Community System or Family System in exchange for Publivity™/Excellentor™ Membership (if Qualified) and a 25% Membership fee.

That your Company is not an island and has partnerships seems to be clear.

However, mind that your Company and even Earthly Government is an extension of The Public, so are all other Companies. Needless to say that The Public is not an extension of Earthly Government and neither of Companies?

You are probably aware that choosing for Excellentor™ Course (Qualification) is by no means to say that you throw out competition completely, not at this moment.

We are in competition with those whom are not PEACE-Oriented and We do not mind you to do the same once you're Excellentor™ Members and Elegant.Partners™.

What We ask is to give Family System: FAMILY.BUSINESS™ Priority.

Yes, We are aware that lack of ENLIGHTENMENT made Earthly Government and Higher Corporations plan for let's say an attempt to solve wars with much less population.

That seems to be of the table, however we have PEACE to attain which with Family System: FAMILY.BUSINESS™ seems to be within reach.

Let Us do this.

Awaiting your response,

Michael 'EMELINE' Roeten
