

send via contact form SAP(.com), date 30 January 2024 ±9:37pm

Greetings,

As follow-up on earlier (below) message, the following:

You may have thought about building & managing an IT System for our in 8/2023 invented Community System: COMMUNITY.BUSINESS™.

(We had also sent Capgemini & Accenture a message.)

We would like to make a proposal (as We have already done to Capgemini), the following:

We are interested that you build & manage an IT-/Transaction System.

We offer:

- Publivity™ C.S.R.(Corporate Social Responsibility) Membership
- Excellentor™ Membership
- UNITED HOLLAND Partnership as Elegant.Partners™

Wij ask:

- IT-/Transaction System that you build and manage;
- at least 25% of Publivity™/Excellentor™ Membership fee, for SAP SE this would be approximately €500M/Year, instead of €2B/Year

When SAP.com is sufficiently in order, then Excellentor™ Enterprise emblem may be shown at sap.com (after OK) and also SAP will be shown as Elegant.Partners™ at unitedholland.com, some above the Footer & mentioned as Partner in Outgoing UNITED HOLLAND Correspondence.

Do you agree with this proposal?

If yes, let Us plan an appointment.

If no, could you tell us what could be acceptable to you?

Awaiting your response.

Cheers,

Michael Roeten

=== Earlier message ===

Send to SAP(.com) via contact form, date 22 January 2022 ±3:45pm

Greetings,

We thought of SAP too, as a possible builder & manager for the following:

In August 2023, We invented Community System: COMMUNITY.BUSINESS™, which is neither

non-profit nor Government Political.

Part of this Community System is CommunityWorkshop.Pro™ and Elegant.Boutique™.

We wish for an Information-/Transaction System for Community System:

COMMUNITY.BUSINESS™.

Perhaps SAP will build & manage this IT System, however We also approached
Capgemini

& Accenture.

Who knows, perhaps Capgemini and/or Accenture and SAP will Join Forces with Us.

We invite you to let Us know if you are interested in rolling-out this 2023
Invention.

More information: <https://community.business> & <https://unitedholland.com>

We intend to publish this writing at <https://community.business>

Awaiting your response,

Michael Roeten
